What our clients say about us...

"Jason was an amazing person to work with. He was professional, personable, and always available to answer questions or talk us through decisions. We would definitely recommend Jason and his team to anyone!"

Eduardo and Camila Calegari

"We heard about 519 Real Estate from several coworkers who had previously used their services and were thrilled with their experiences. This referral was important to us since we had had a negative experience with our last realtor and were really looking for someone we could rely on. We were not disappointed. Jason and Lisa from 519 Real Estate helped us sell our old house and buy our new house in a very timely and professional manner. Jason quickly earned our trust by listening to what we wanted and understanding our choices. We were very specific with the requirements for our new house and, despite a potentially difficult search, Jason never once tried to influence or redirect our requirements or budget. He accepted the challenge and certainly rose to the occasion. Jason found us the perfect house, which we plan on calling home for many, many years to come."

Nate Bean and Renee Simonot
